How to Earn Credits for College Degrees While Still in High School

We all know that going to college after graduation from high school can be expensive, so if you could take industry certifications through a Career and Technical Education Program while still in high school and earn credits or clock hours towards an AS/AAS or PSAV Degree why wouldn't you?

TUITION & FEES

The current tuition rate for PSAV (Post-Secondary Adult Vocational) for the 2017-18 SY at Emerald Coast Technical College is \$2.92 per clock hour. The current tuition rate for Advanced & Professional Degrees for College Credit or for Post-Secondary Vocational for College Credit is \$104.01 per credit hour for the 2017-18 SY at Northwest Florida State College.

One example of savings might be if the industry certification earned by the student is equal to 150 clock hours then the student/parent could save \$438.00 on tuition and fees at Emerald Coast Technical College or if the industry certification is equal to 3 (three) credit hours then the student/parent could save \$312.03 on tuition and fees at Northwest Florida State College, as indicated by the tuition rates mentioned above.

Reminder....Books and Supplies are not covered in tuition and fees at a Post-secondary Institution.

CURRENT INDUSTRY CERTIFICATIONS IN WALTON COUNTY SCHOOL DISTRICT
